

# Google Play

How to install and update apps  
on Play Store

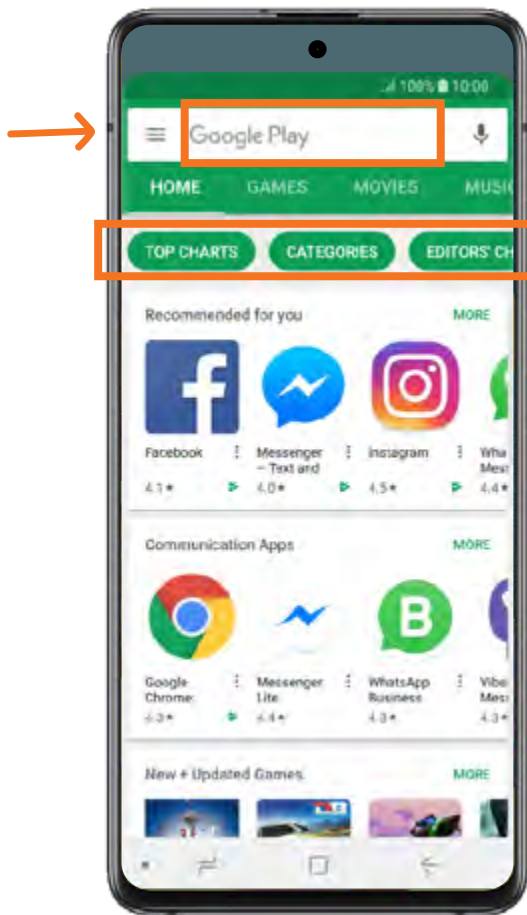

LeVa

To get started, tap on the Play Store icon on the home screen.

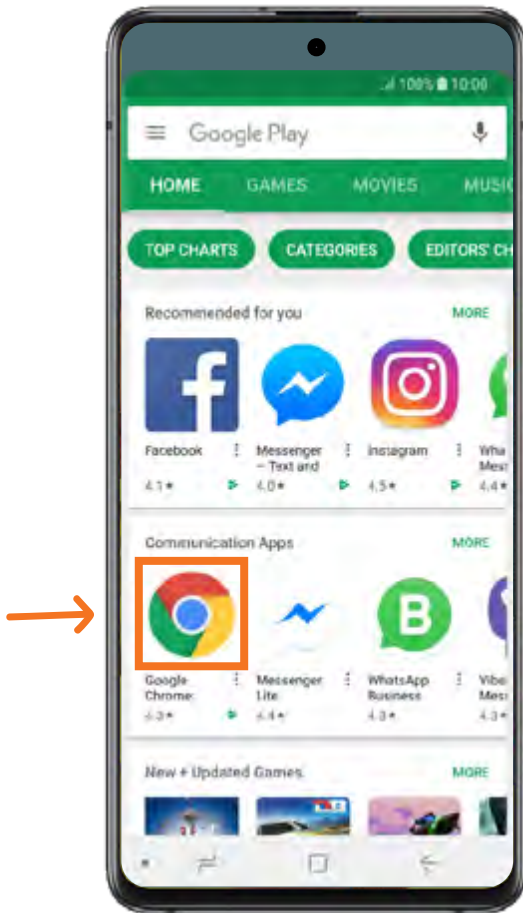

## Install apps or games on Play Store:

Tap on the search field to type the name of the app or game you want.

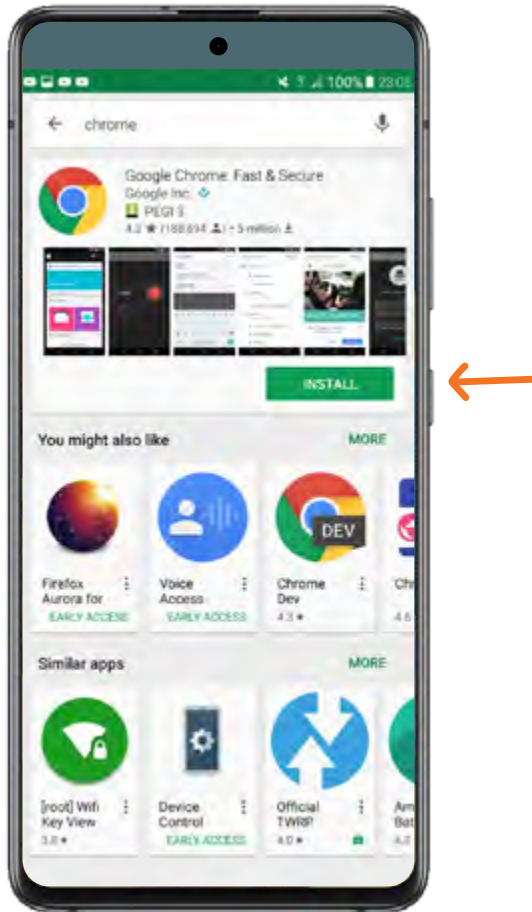

You can also browse the categories or Google's recommendations.

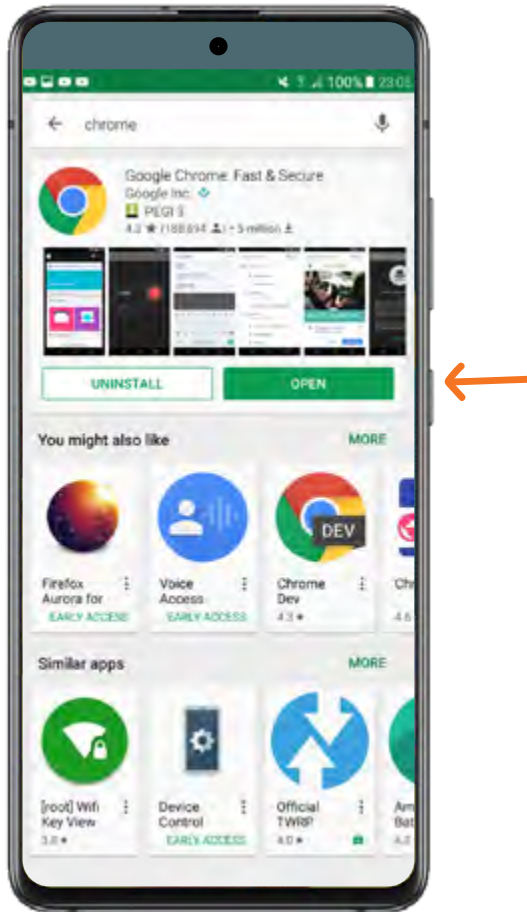

Select the app by tapping on the icon.

Tap on the **INSTALL** button.  
Google Play will download the app or  
game and automatically install it.

Once installed, you can open the app or game by tapping on the **OPEN** button, or on the icon on your home screen.

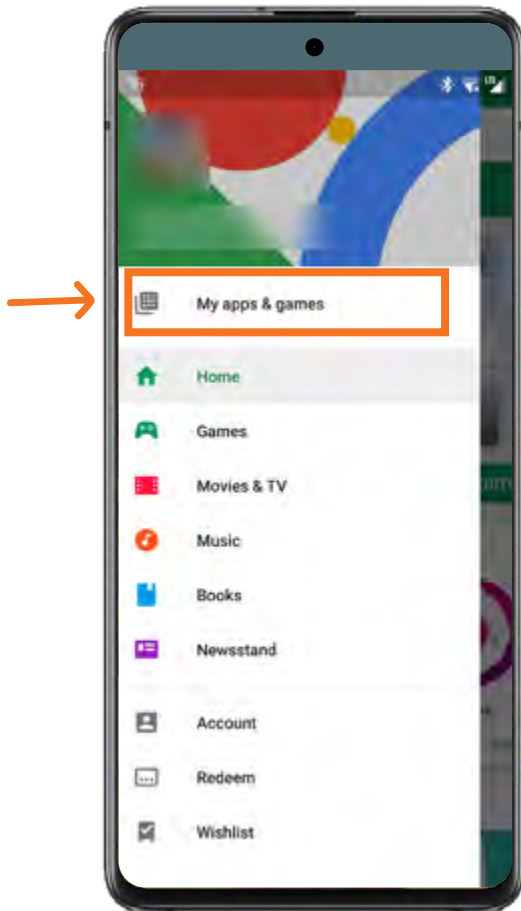

## Update your apps and games on Google Play:

Click the 3-line menu button in the top left corner of the screen on the Play Store home page.

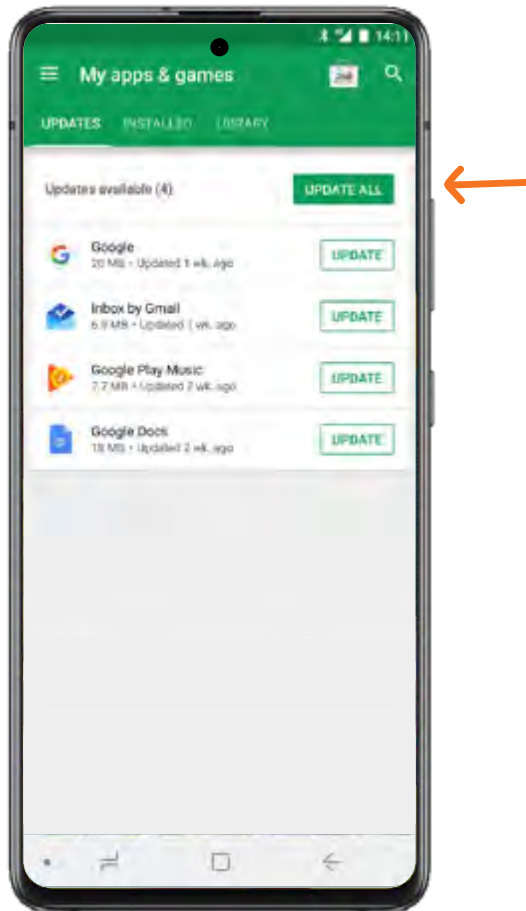

Select the **My apps & games** to open a list of all your apps and games.

Update individual apps by clicking the **Update** button or update everything with the **Update all** button at the top of the list.
